

INNOVAC23

EVENT IDEA

- Blind coding : Keep the screen off and ask the contestant to code a program.
- Googler : Ask contestant to Google search some of the random things.
- Lecture Series : Invite guest to speak on trending tech innovation.
- Programmers Date : Ask a Female coder to partner with a Male Programmer and go on a programming date, which will be a over night Hackathon.
- Personal Bot : As you know currently bots are into tech trend, ask your contestant to build a bot that solves their or someone else personal problem.

VISION

- The vision of this is to encourage students towards this field and to provide a platform where they can show their skill.
- Also this event will help to boost the confidence of students who want to pursue these skills as their future.

PEOPLE NEEDED

- There will be around 10 students who will be managing the whole conduction of the innovac23.
- 2-3 students will be conducting the particular event that will be organized.
- so total 20 students will be needed to conduct the whole event.

PUBLICITY

- No doubt to conduct this event successfully we will be required some funding that will be provided by sponsors.
- Invitation will be sent to different colleges for the participants to come and participating in our event.

- All the information regarding this event will be spread through the CR and we will try to spread this information at most popular place in the campus.

CONCLUSION

- All the member of this event will get the best experience and will learn a lot of thing in the field of tech and otherwise also. Also all the student who will participate in this event will have a chance to show their skill.
